

“Everpure” Galley Water Filter

BENEFITS

Improves quality of potable water in the Galley by removing chlorine and other bad tastes and odors while filtering out dirt and other suspended matter. Easily replaceable cartridges.

DESCRIPTION

An “Everpure” water filter is installed in the potable water supply line on the outboard side of the G1 Galley. The filter is mounted to the side panel of the G1 Galley and is accessed, for filter replacement, from the removable aft side panel of the galley. An additional segment of heated hose is included as a part of the installation.

APPLICABILITY

- Bombardier Aircraft Model CL600-2B19

CERTIFICATION

- TRANSPORT CANADA STC #SA02-137
- FAA STC #ST01624NY

WEIGHT

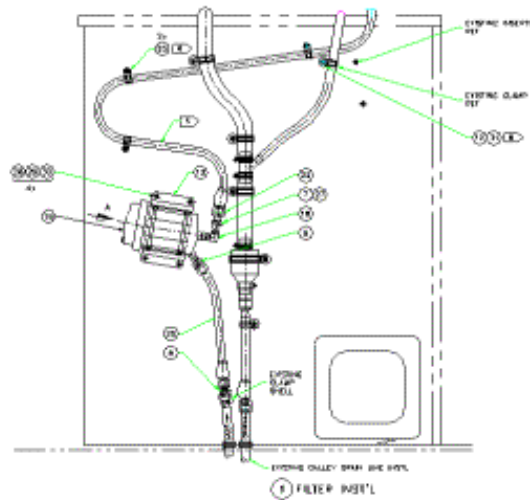

- Weight Increase – 3.5 lbs. (1.6 kg)

ELECTRICAL LOAD

- Negligible

MANPOWER

- Approximately 20 man-hour

STC KIT CONTENTS

- Everpure S1B water filter
- Replacement cartridges
- Mounting bracket and hardware
- Electrical heated hose
- Installation drawing
