

BENEFITS

Offers greater flexibility for seating configuration and for storage space of coats and other passenger garments. The first row (either on the LH, RH or both) is removed and replaced by a wardrobe. The unit is attached to the seat rails using special fittings.

DESCRIPTION

This STC is a conversion that allows for installation of 3 different configurations as follows:

- Removable wardrobe left hand side of aircraft aft of the passage door.
- Removable wardrobe right hand side of aircraft aft of the service door.
- Removable wardrobe left hand and right hand side of aircraft.
